

Phonak Guide

Assigning a patient name to a device on Phonak Store

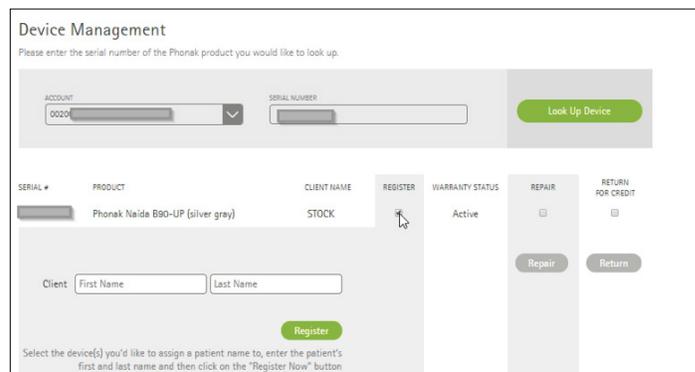

Use Phonak Store to quickly and efficiently assign your STOCK devices to patients.

1. Click on "Device Management" on Phonak Store home page.

2. Perform a search for a device using the serial number. The returned results will display.
3. Choose the "Register" checkbox, add a First and Last Name, and click "Register."

Note: Devices can be assigned to Patient Name if they were purchased as Stock devices on original invoice and within trial period.

New to Phonak Store?

Unsure as to where to begin? Schedule a one-on-one training with an eServices specialist. Simply email your training request to eservices@phonak.com.
